Iris and Hemerocallis

Lovely Blue Triumph

Q U A L I T Y G A R D E N S

FOREWORD

FOR FIFTEEN YEARS we have made the foreword of our catalogue a serial story of the development of the iris and a summary of the activities of the iris world. Each year we have called attention to fine new introductions. We have spoken freely on the issues of the iris world with some of which we were not in agreement and we believe the test of time has justified our judgment.

Our catalogue developed from a small pamphlet into a deluxe publication with fine typography and beautiful color plates of the newer and finer irises taken from color photographs. We tried to make it a ready reference book of the latest and best in irises. It is with great regret that we announce the discontinuation of an elaborate catalogue and our intention to close our business when our present large stocks are sold.

We have the most complete and up-to-date collection of iris worthy of being in commerce that can be gotten together in the world.

We also have an up-to-date and comprehensive collection of the newer and finer hemerocallis, one of the most beautiful advances in horticulture of late years. The hemerocallis, more familiarly known as yellow day lillies, have shared our interest with the iris. They have this added attraction over the iris that by proper selection you may have a fine display of these gorgeous flowers from May until September.

We have been singularly fortunate in having as customers many thousands of enthusiastic iris growers all over the United States and in foreign countries as well. From a small local beginning our business has grown to international proportions. Many of our customers have become warm personal friends who have encouraged us and permitted us to continue our business during prosperous times and in the lean days of depression by their never failing support. It will always be a grateful memory. To these friends we feel that a few words of explanation concerning our reasons for retiring at the height of our business career may perhaps be fitting.

Ill health has forced our decision to retire sooner than we had anticipated. We have found great difficulty in obtaining reliable gardeners and during the last few years it has become necessary to spend from sunup to sundown in our fields to keep apace with the work and justify the confidence reposed in us by our customers and to make it certain that when a certain variety was ordered that variety was delivered.

We know from bitter experience the disappointment we felt when we found we had received some other variety than the one we ordered, especially when it was a fine, high priced variety. For this reason and to keep the high standard which we set from the start of the business we have decided to close out under our own personal supervision.

While we cannot help but feel sharp pangs at parting company with a business that has been practically our whole life for so long, yet it has its compensations. Our decision to retire brings closer to realization a pleasure we promised ourselves through the years we have been selling iris—a return to growing iris as a personal hobby—not only iris, but a whole garden. We shall have a garden that we can conduct without burdensome toil, in which we can plant, pull weeds and have time to stop and admire the results any time we feel the urge to do so. At heart we have always been a plain dirt gardener.

Strange as it may seem, living in the midst of the finest irises in the world, this will be a real luxury of which we have had little opportunity to avail ourselves in recent years because the rush of business during the short blooming season allowed us to take no recesses for our own pleasure.

We are asking our readers to take this foreword as a personal note of thanks for the years of loyal support you have given us and hoping that you will continue that support until the last order goes to the shipping room. We do not anticipate closing out our business this season, but hope to do so by the end of the 1940 season. Many plants will not be of saleable size this year and must be carried over for further development. Each plant sent out will be of standard saleable size and dug and packed under our personal supervision.

We have had many thousands of visitors during the years of our business activity. We have been proud of the privilege of showing them our gardens. We are disposing of our business, not our garden. We extend again the invitation to visit us at blooming time or at any time you pass through Freeport.

With these words we start bowing ourselves out of the commercial iris world with many regrets, yet looking forward to a personal enjoyment of this most beautiful of all garden plants that business has not permitted in full measure.

MRS. DOUGLAS PATTISON.

NOVELTIES AND RARE IRISES

Golden Glow (Glutzbeck 1939) 38" The glowing golden yellow seedling shown in our garden the past two years. Of good size, and height with perfect branching. A deep yellow self, smooth finish. A good stock permits the low price. Highly recommended. **\$5.00.**

The varieties listed below are the choicest and most beautiful varieties listed in various catalogues and stocks are small. We have been guided by our contracts and agreements with other dealers and hybridizers and have used their prices for this season, on their introductions.

Aida (Mitchell 1938) A beautiful golden bronze with tobacco brown flush. Flowers large, well formed and well poised. Distinct and beautiful. **\$5.00.**

Apricot (Kleinsorge) A golden apricot self. Distinct and beautiful. Flowers medium size. **\$8.00.**

Aubanel (Cayeux) A lovely new shade. A soft raspberry and pink combination of great beauty. Quite distinct from anything we have seen. **\$5.00.**

Bonsor (Connell) A new deep blue of unusual richness and intensity. Fine form and freedom from venation make it very outstanding. **\$15.00.**

Cafe au Lait (Graham) A stunning new color break, a soft creamy tan self with orange and gold shading. Stalk tall and sturdy. **\$15.00.**

Calcutta (Kleinsorge) A tall and imposing flower in soft cocoa brown overlaid with a bluish haze; bold growing habit, widely branched and carrying many flowers. **\$6.00.**

City of Lincoln (H. Sass) A tall and striking variegata of clear and vivid coloring. S. bright yellow, F. velvety red. The best variegata we have seen. **\$15.00.**

Coronet (Hall) A soft rose beige with a golden tone. A superb variety of a color entirely new. Stalk tall and widely branched. Altogether lovely. **\$17.50.**

Crimson Tide (Nicholls) A floriferous new red. S. arched and domed, F. flare widely, of a deeper red than the standards and are very velvety. Beard orange. **\$15.00.**

Derrill Hart (Glutzbeck) A flower of exceptional charm and beauty. S. rose shot bronze, F. deep velvety wine color. Dubarry rose in effect. **\$20.00.**

Drap D'or (Cayeux) A lovely clear lemon yellow self, of fine flaring form and tall well branched stalks. A fine garden subject. **\$8.00.**

E. B. Williamson (Cook) A new light coppery red of lustrous silken sheen. Low branched stems, great size of bloom and perfect form. Roman Gold Medal, 1938. **\$15.00.**

NOVELTIES AND RARE IRISES (Cont.)

Fair Elaine (Mitchell) A cream and yellow bicolor. S. soft cream, F. rich yellow with rich gold beard. Tall and of good substance. \$25.00.

Garden Magic (Grinter) A pure glowing red self. Its performance in my garden last year convinced my visitors that my statement that it was the best red in existence was not overdone. \$15.00.

Golden Majesty (Salbach) A pure golden yellow self of great beauty. Stalk tall and well branched, the flowers are large and well formed. Its finish is smooth and it does not fade. An iris of pure gleaming gold. \$25.00.

Great Lakes (Cousins) A broad, spreading flower of pure sky blue. The color is pure and lovely and there is no venation. A distinct addition to the blue class. \$7.50.

Louvois (Cayeux) A very rich looking iris of soft brown and crimson tones. The S. are soft brown, F. rich crimson and very velvety. Outstanding. \$10.00.

Manavu (Thorup) A striking white and yellow bicolor. S. creamy white, well arched, F. canary yellow, semi-flaring. Brilliant red gold beard. The largest and purest yellow and white bicolor we have seen. \$12.50.

Matula (H. Sass) A beautiful rose blend of unusual coloring and very fine form. S. apricot flushed congo pink in center, F. soft Indian lake edged buff. \$20.00.

Ming Yellow (Glutzbeck) The finest yellow we have grown in our garden. A very large smooth flower of pure deep yellow of even tone with smooth and lustrous finish. Substance very thick. Stalk superbly branched. A wonderful iris. \$25.00.

Miss California (Salbach) A beautiful and distinct lilac pink self. A decorative iris with very large flowers of perfect form and good substance. Growth vigorous. \$7.50.

Modiste (Hall) A lovely self of pale mauve, different than other flowers of similar shades. Similar to the old Mlle. Schwartz, so lovely, but not hardy. Modiste is hardy and beautiful. \$7.50.

Mountain Snow (Kellogg) A very large glistening white faintly tinged blue with pearl pink at the center. Large and ruffled. \$10.00.

Morocco Rose (Loomis) Becoming more popular as it is becoming known through distribution. Morocco Rose is now

acclaimed as the finest pink blend. Lustrous soft pink flushed deeper pink, yellow at base. \$8.50.

Mount Washington (Essig) A pure warm white with golden heart, gold haft. A very large flower of flaring form. Stalk well branched and tall. \$8.00.

Mrs. Silas B. Waters (Ayres) A charming large pale yellow self, with arched standards and flaring falls. Deep yellow haft and soft gold beard. \$4.00.

Mrs. Willard Jaques (J. Sass) A beautiful ruffled flower of pink blended shades hard to describe. Color effect a warm pink deeper than the popular Noweta. \$5.00.

Orloff (H. Sass) One of the best of the new color combinations. A creamy yellow background overlaid rich cinnamon brown, heavier on the standards than on the falls. The medium sized blooms are of good form, stalks have good branching. \$15.00.

Ormohr (Kleinsorge) A huge lavender Wm. Mohr seedling, said to be perfectly hardy and a better bloomer than its parent, also to have good growing habits. \$20.00.

Patricia (H. Sass, 1939) A sparkling white of semi-flaring form, both standards and falls are fluted at the edges. A lovely new addition to the white irises. \$20.00.

Royal Coach (H. Sass) One of the new yellow plicatas with large flowers of fine form. The bloom is a very deep yellow flushed and edged bronze. Outstanding. \$10.00.

Snoqualmie (Brehm) A smooth creamy flower of leathery substance, of smooth dull finish. A tall iris of excellent form and branching. \$10.00.

Spring Prom (Hall) A dainty primrose yellow, with a deep gold heart. Fine flaring form, well poised on very tall, widely branching stalks. \$10.00.

West Point (Nicholls, 1939) A brilliant, two-toned indigo blue. S. deep blue, F. a shade darker of velvety indigo, white beard, tinted blue, on soft brown haft. A very lovely blue. \$15.00.

William A. Setchell (Brehm, 1938) A very showy iris, being both tall and broad. S. clear steel blue, F. violet blue. Of mammoth size, tall and well branched. \$17.50.

White Goddess (Nesmith) Large well-domed flowers of pure white. Falls arched and flaring. The flowers are glistening white and borne on tall sturdy stalks. \$10.00.

TERMS

PLEASE ORDER EARLY—To prevent disappointment. Orders will be filled in rotation but special effort will be made to fill orders for customers going on summer vacations. All orders will be filled with strong rhizomes grown in our own plantings and they will be freshly dug. We do not handle stored rhizomes.

TIME OF SHIPMENT. Orders will be filled beginning June 20th. If you have early shipment plants will not be as large as those shipped in July or August, but they will make their growth in your garden.

TERMS. Cash with order, please.

POSTAGE. Prepaid on orders for \$2.00 or more. For less, add 25 cents for postage and packing, or you may have them sent express collect.

WE GUARANTEE stock to be true to name, vigorous and healthy when received. If not satisfactory, please return at once and adjustment will be cheerfully made or money refunded. After safe delivery we assume no responsibility for what may happen thereafter and we cannot assume risks covering successful culture of plants after they have passed beyond our control.

WE WILL APPRECIATE your co-operation in our effort to dispose of our iris and hemerocallis stocks. Some stocks are very large, some small. The prices are low and some of them will be sold out rapidly. Please give us permission to substitute if an inexpensive iris cannot be furnished and thus save us the clerical work of sending back a small amount of money. We assure you that you will be treated generously and you will get a better iris than you ordered if substitution is necessary.

10% DISCOUNT on orders received before July 1st.
